

Stamus Networks Appliances

Stamus ND and Stamus NDR each consist of two software components: Stamus Network Probes and Stamus Security Platform. Each play a critical role in scaling the system.

While Stamus Security Platform and Stamus Network Probe software may be deployed in a private cloud, a public cloud, on your own dedicated hardware, or in hybrid environments, many organizations do not have the resources to install and maintain the software in these scenarios.

For those organizations looking for a turn-key deployment experience, Stamus Networks offers a family of integrated network appliances which are optimized for and pre-loaded with the Stamus Network Probe or Stamus Security Platform software.

	Stamus Security Platform Appliance	Stamus Network Probe Appliances			
		100M	1G	10G	40G
Form Factor	1U	1U	1U	1U	1U
Dimensions (W x D x H)	17.1" (434 mm) x 21" (534.5 mm) x 1.7" (42.8 mm)	17.2" (437 mm) x 11.3" (287 mm) x 1.7" (43.2 mm)	17.1" (434 mm) x 21" (534.5 mm) x 1.7" (42.8 mm)	17.1" (434 mm) x 21" (534.5 mm) x 1.7" (42.8 mm)	17.1" (434 mm) x 31.8" (808.5 mm) x 1.7" (42.8 mm)

ABOUT STAMUS NETWORKS

Stamus Networks believes in a world where defenders are heroes, and a future where those they protect remain safe. As defenders face an onslaught of threats from well-funded adversaries, we relentlessly pursue solutions that make the defender's job easier and more impactful. A global provider of high-performance network-based threat detection and response systems, Stamus Networks helps enterprise security teams accelerate their response to critical threats with solutions that uncover serious and imminent risk from network activity. Our advanced network detection and response (NDR) solutions expose threats to critical assets and empower rapid response.
